

# Site Safety Checklist

Run and record the pre-start safety checks for a site visit, with the hazards identified and the person who approved it.

---

|                                         |             |
|-----------------------------------------|-------------|
| Site address *                          | <div></div> |
| Date of check *                         | <div></div> |
| Checked by *                            | <div></div> |
| Hazards identified                      | <div></div> |
| Required permits on site                | <div></div> |
| Personal protective equipment available | <div></div> |
| Site is safe to proceed *               | <div></div> |
